

SAINTS WEEKLY

YOUR GUIDE TO SAINT JOSEPH SCHOOL!

YOUR GUIDE TO SAINT JOSEPH?

MAY 17, 2018

Principal's Corner...

Summer can obviously be a great time for learning, even if school is out. Studies show that reading four to five books over the summer has a positive impact comparable to summer school enrolment. Plus, this gives your child a chance to choose books that he or she is interested in, keeping the activity fun and interesting!

Ways to incorporate reading into your summer plans

- Take a trip to your local library
- Bring a book with you to the park or the beach
- Read a chapter in the morning, when your child is used to learning and before other plans cause distraction

The use of technology offers many opportunities to encourage summer learning. Through promoting vital skills like problem solving and critical thinking, educational games are a valuable way to allow technology to your summer learner. How can technology be added into your summer plans?

- Challenge your child to a new high score on an educational app
- Start a tech project together - like a toy robotics kit
- Teach kids through your own tasks - ie. baking a cake, or fixing a bicycle

See attached flyer for more information
